MOBBISM IN KNOXVILLE.

The National Association for the Advancement of Colored People today made public a letter received from a colored citizen of Knoxville, Tenn., reciting brutalities and indignities to which colored people in that city were subjected, making it necessary for citizens, both white and colored, to petition Governor Roberts to order white soldiers removed from that city. The letter is as follows:

The soldiers sent to check the mob that attacked the jail here on the night of August 30, and liberated all the white prisoners, did also as much harm as the mob. A false report was circulated to the effect that Negroes had killed two white men. This was done to turn the attention of the soldiers from the mob at the jail. The soldiers, hearing this report, rushed into the colored section with a machine gun and began firing. As a result, one colored man and one of the officers commanding the soldiers were killed.

The soldiers were given orders by someone to search and disarm all Negroes. A more disgraceful order was never issued. From four o'clock Sunday morning until night, colored men and women were stopped on the streets and searched by the soldiers. Nothing more than pocket knives were found on them, but the soldiers took the knives from them. One colored man going three blocks was searched seven times. The indignities which colored women suffered at the hands of these soldiers would make the devil blush for shame. Low class white men took advantage of the helplessness of the colored men and began cursing and abusing them on the streets. One colored man, coming home with his family, was struck and humiliated by a white ruffian.

Both white and colored citizens protested against the mistreatment of the colored people by the soldiers, and, as soon as they could get in touch with Governor Roberts, petitioned him to take away the soldiers at once. They were ordered from the city early Monday.

Two recent decisions of the national war labor board are in harmony with the constitution which labor is striving to establish both here and abroad and will do much to smooth the way for the woman in industry by allaying the suspicion with which some of her shortsighted male co-laborers have regarded her.

Woman's industrial sphere has been so enormously enlarged within three or four years and she has so conspicuously proved her adaptability to manufacturing processes long regarded as beyond her strength or deftness, that it is well for all concerned to have her status fixed and recognized in an official way. Her indispensability during war was shown in a sensational manner. But her indispensability in peace times is now just as evident.

Oklahoma City, Ok.—Howard E. Figg, who has been appointed by the Department of Justice to take charge of the fight against the high cost of living in this state, has announced the appointment of a fair price committee of seven members.

Dublin.—Peter Paul Gallivan, Sinn Fein member of Parliament, who was court-martialed for drilling troops and inciting mobs against police officers, has been sentenced to a year's imprisonment at hard labor.

Sheridan, Wyo.—Capt. Harry Leach, just returned from the Cheyenne Indian Reservation, reports that hundreds of horses are being killed there, the hides sold and the meat is being issued to the Indians.
